

AMENDMENTS TO THE SPECIFICATION

Please amend the first full paragraph on page 4 as follows:

SCR structure 100 additionally includes a p-type region 118 that is formed in the top surface of epitaxial layer 112. P-type region 118 has a center region 118A, a first outer region ~~116B~~ 118B that adjoins center region 118A, and a second outer region 118C that adjoins first outer region 118B.
